

Conferencing without compromises

Maximize message. Minimize management.

The secret to conferencing success

Is conferencing on your mind?

Whether you're a conference facilitator, technology buyer, event planner, or user, you're likely thinking about the significant innovation, massive expansion of use cases and HUGE mainstream adoption of the last few years. Oh, and what it all means for you.

Because where conferencing was once a complex blend of people, platforms, and processes, it's now a more complex blend of dispersed people, platforms that are changing at warp speed, and processes that have multiplied in support of hybrid audiences.

For more than twenty years we've helped enterprise and government communicate effectively through audio, video, and web conferencing. And the current state of affairs? We have thoughts - about helping organizations harness platforms, manage people, and simplify processes to achieve **Conferencing without Compromises**. You can read them over the pages that follow or chat with us at hello@intellor.com.

I just wanted to say a huge heartfelt thank you to all of you for your exceptional help over the past few weeks. Without your direction we would not have pulled today's meeting off! I was very happy with the run-of-show and so was the Commission, Executive Director and our community partners.

Assistant to the Executive Director,
Local Government Agency

Free business to focus on communication

“ I need my team focused on developing and delivering the optimum message and truly engaging the media. ”

“ I don't have time for complexity. I need to focus on landing the CEO's Town Hall and leave the tech to someone else. ”

Conferencing means...

- ⚠ Assess the organization's available platforms
- ⚠ Configure the meeting, registration, or invitations
- ⚠ Review the latest features to optimize engagement
- ⚠ Ensure accessibility
- ⚠ Coordinate speakers, materials, and videos
- ⚠ Manage the technology, audience, and interactions
- ⚠ Produce recordings, transcripts, and captions

Conferencing without Compromises means...

- ✓ Develop and deliver your message
- ✓ Leave the technology and management to Intellor
- ✓ Focus on achieving impact and outcomes

Customers say...

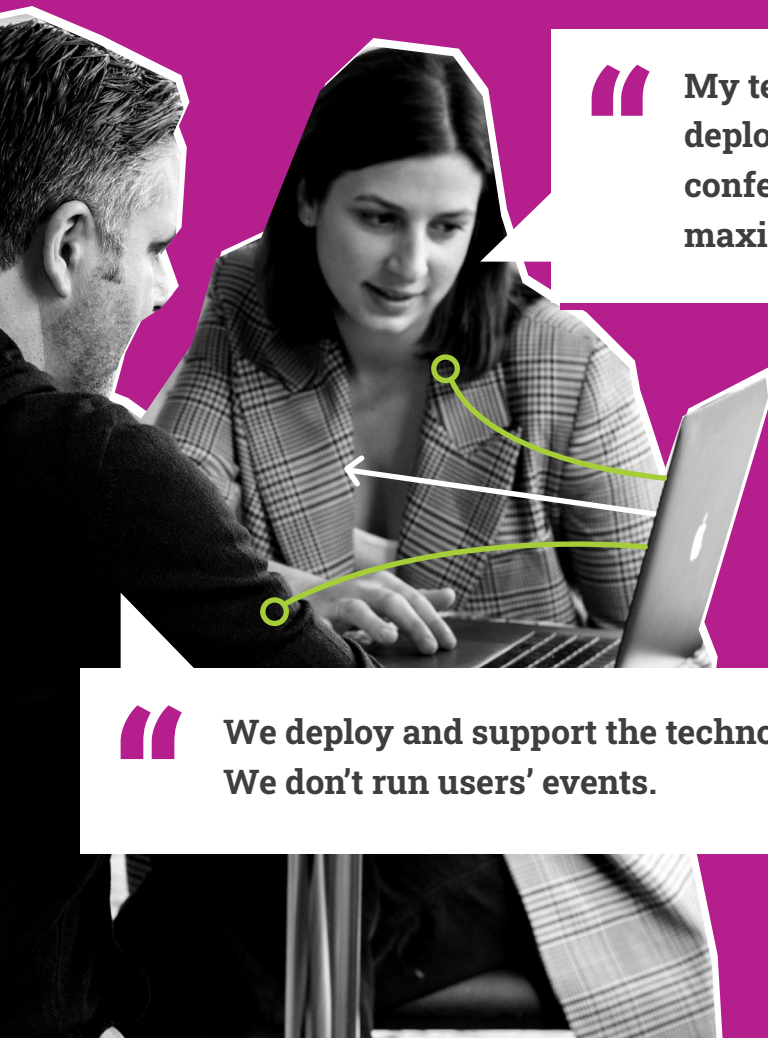

“ Your professionalism is unmatched. I look forward to every opportunity to work with you. ”

Analyst,
US Government Agency

“ A huge thank you to you and team of rock stars - especially this week for both the scheduled Global Town Hall and last minute adds for the regional Town Halls. The producers were absolutely terrific and provided exceptional support for both the U.S. and EMEA. ”

Corporate Comms & Global CSR,
Chemical Company

Free IT to focus on ROI

“ My team needs to select, deploy, and support the right conferencing technology to maximize ROI. ”

“ We deploy and support the technology. We don't run users' events. ”

Customers say...

Conferencing means...

- ⚠ Address user tech selection and configuration questions
- ⚠ Field conference user requests and provide support for VIPs and “can't-fail” communications
- ⚠ Build user confidence to drive adoption
- ⚠ Prevent users making unauthorized investments
- ⚠ Maximize investment return

Conferencing without Compromises means...

- ✓ Improve corporate tech ROI
- ✓ Trust Intellor to support your users
- ✓ Focus on strategic and digital transformation tasks

“ You and your team have been magnificent! Your efforts are greatly appreciated! Words cannot express my gratitude at what you all do so seamlessly and professionally but I would like to say thank you on behalf of the agency. ”

Office of the CIO, US Government Agency

About Intellor

- Broad business experience, enabling corporate communications agendas for more than 2,000 users
- Support mission-critical communications as a trusted partner to cabinet and independent agencies, as well as state and local governments
- Enable global communications across 27 countries and 5 continents

“ Thank you for being a great partner. Your team members are awesome to work with on what I would consider some of the most important work we do! ”

Director, Governance & Board Relations, Healthcare System

“ I never worried about these hugely important calls going off without a hitch with you and your team involved, and that is so important in my world. From the bottom of my heart, THANK YOU! ”

Align business & government with event innovation

Get the most from technology

We take an agnostic approach to technology as a service (leveraging best-in-class platforms from AT&T, Cisco, and Zoom), maintain deep and wide technical expertise, and continuously evaluate new features and tools to improve engagement.

Increase engagement

Experience across thousands of events gives us blueprints for successful digital and hybrid events with optimum attendance and audience participation.

Technology expertise enables engaging content, including seamless switching between live video, recorded content, motion graphics, interactive polling, and distributed panel discussions.

Focus on accessibility

Intellor can design event models that control or encourage access, enable interoperability with organization and partner video systems, and enable in-event and post-event accommodations for participants.

90%

of US businesses will spend more on video conferencing in 2022
