

Intellor Webinar Services

When your message is mission critical, there's no time for errors.

Your team doesn't have time to configure seldom-used features, incorporate pre-recorded media, build complex registration processes, or manage and support the technology during the webinar.

Let Intellor handle the webinar technology so you can invest it in the most important part - the content.

| | Pre-Conference | Conference | Post-Conference |
|---------------------------|--|--|--|
| Optional Services: | <ul style="list-style-type: none">• Configuration of features, settings, invitations, or registrations• Dry Run/Rehearsal• Pre-Recording Session | <ul style="list-style-type: none">• Operator moderates call, including:<ul style="list-style-type: none">- Speaker sound/video check- Run-of-show review- Live technical support- Materials management- Engagement management (Q&A, polling, etc.)• Onsite Video Crew (Washington, DC area) | <ul style="list-style-type: none">• Transcript• Transcript Translation• Editing Services |

You've got the message. Trust the moving parts to Intellor.
